## NOTES:

1. To report a problem or leak call Kyle Dickson (707)362-0653 OR Mike Daniels (509) 366-0899
2. The schedule is set up for you to water every other day
3. This schedule is based on 6 hours per user bi-daily in order to comply with our ditch allocation of 100 gal/min
4. Two of the four homes that share a 6-hour time block are asked to prioritize the first 3-hour half of the window, while the other two homes are asked to prioritize the second half. You may water more than 3 hours, up to 6 hours. The purpose is to prevent damage to our pumps caused by lack of flow.
5. The number adjacent to ODD1 or EVEN2 indicates which half of your time block to prioritize (1 - early, 2 - later)
6. If you have a two day timer capability you can set your timer once for the season
7. If you should want to trade times with some other home owner, or have a question about the schedule, please contact Kyle Dickson
